

Heavens to Betsy

Paper Foundation Patterns

For the border of the cover quilt *Heavens to Betsy*, shown on *QNM's* June issue, Beth Lyda made a variety of paper-foundation pieced stars using patterns from one of the technique's most prolific designers, Carol Doak. Carol and her publisher, Martingale & Company, have generously granted permission for us to present three of the blocks here for the personal use of our readers: Alaska Star, Connecticut Star, and Ohio Star. The blocks are from Carol's book *50 Fabulous Paper-Pieced Stars* (Martingale & Company, 2000), available from your local quilt store or online retailer.

Look for information on paper-foundation piecing on the website of our sister publication *Quiltmaker*. Basic how-to instruction is provided at <http://quiltmaker.com/basic/basic6/index.html#foundationpiecing>.
