

Ana Macaluso's adorable quilt *Let It Snow* was presented in "Thread Embellishment," the "Quiltmaker's Workshop" in the December/January 2009 issue of *Quilters Newsletter*. A smaller version of the drawing was included in the issue, but here's a larger version for you to print and use if you don't have ready access to a photocopier that will enlarge or reduce the pattern to a size you like. To save paper, we've split the wreath into quadrants so you can print it on 2 sheets. Cut and paste the quadrants according to the numbered diagram below. Enjoy!
